

"MONTREAL" PEDESTAL BASE VAULTING TABLE

- FIG Approved
- Table with a dynamic bi-color body
- Very comfortable to use
- Reduces gymnasts' fear thanks to its reassuring shape and the comfort layer positioned over the whole hand placement area to soften impacts
- The new adjustment system makes it easy to adjust height with one operation without bending down
- User safety is ensured by the pre-formed foam guard covering the whole vertical column (3-part protection)

COMPOSITION OF THE VAULTING TABLE

- 1 – Table body only with connection kit – Ref. 3454
- 2 – Complete pedestal base without guard – Ref. 3401
- 3 – Full guard – Ref. 3402

TECHNICAL FEATURES

- Featuring a two-tone dynamic body with a soft front section for shock absorption
- Non-slip top covering the hand placement area
- With a body using a complex of dynamic foam and springs to give gymnasts a fast, dynamic response
- Height adjustment between 1 and 1.35 m without removing the guard with locking notches at 5 cm intervals
- Quick height read-off thanks to the marker points on both sides of the pedestal guard
- Supplied with pedestal guard **Ref. 3402** and fixing system to floor (without anchor points)
- Removable lower part to slide the base protection mats (**Ref. 2921**)
